

Survival Skills!

Rainforests cover 2% of the planet but are home to around 50% of plant and animal species.

The animals that live there have their own adaptations that make them suited to this habitat.

Using the links on the back of this sheet and your own research, try and find animals that with the adaptations listed — write their name and draw a sketch of the adaptation!

An adaptation that helps the animal to **protect itself from predators**.

Animal: _____
Adaptation: _____

An adaptation that helps the animal to **hide**.

Animal: _____
Adaptation: _____

An adaptation that helps the animal to **communicate** with other animals in its group.

Animal: _____
Adaptation: _____

An adaptation that helps the animal to **eat its food**.

Animal: _____
Adaptation: _____

An adaptation that helps the animal to **catch its food**.

Animal: _____
Adaptation: _____

An adaptation that helps the animal to **climb**.

Animal: _____
Adaptation: _____
