Day 1: Tuesday 27th February

Current targets, progress and shortfalls on protection of space for nature under Aichi Target 11

<table>
<thead>
<tr>
<th>Time</th>
<th>Session 1: Chair, Matthew Hatchwell, ZSL</th>
<th>Session 5: Chair, Ken Norris, ZSL</th>
</tr>
</thead>
</table>
| 09:00  | Jonathan Baillie, National Geographic Society  
Introduction and aims | Stephen Woodley, IUCN WCPA  
Conditions for protected area effectiveness |
| 09:10  | Cristiana Paşca Palmer, CBD Secretariat  
Engaging local communities in area-based conservation |

09:45  | Naomi Kingston, UNEP-WCMC  
Coverage of the current global protected area estate |

10:00  | Rachel Golden Kroner, George Mason University and Conservation International  
The conservation implications of protected area downgrading, downsizing, and degazettement (PADDD) |

10:15  | DISCUSSION |

10:30  | TEA/COFFEE |

11:00  | Penny Langhammer & Daniel Marnewick  
Global Wildlife Conservation & BirdLife South Africa  
Key Biodiversity Areas as sites for ensuring the persistence of biodiversity post-2020 |

11:10  | Stuart Butchart, BirdLife International  
How much land do we need to meet the biodiversity aims of Aichi Target 11 |

11:20  | DISCUSSION |

11:35  | Mark Mulligan, Kings College London and UNEP-WCMC  
Possible vs optimal space for nature scenarios to sustain biodiversity and ecosystem service provision at the global scale |

11:50  | Siyuan He, Chinese Academy of Sciences  
Benefiting local people through a national park systems – an ecosystem services approach |

12:05  | DISCUSSION |

12:20  | LUNCH |

13:30  | Carlos A de M Scaramuzza, Federal University of Minas Gerais - UFMG  
Importance of the Amazon Basin for global biodiversity and nature’s benefits to people |

13:45  | Dan Laffoley, IUCN WCPA  
The importance, progress and challenges of protecting the ocean |

14:00  | Maria Rivera, Ramsar Convention  
Ramsar Convention on Wetlands towards the Sustainable Development Goals and the Agenda 2030 |

14:15  | DISCUSSION |

14.30  | Jodi Hilty and Gary Tabor,  
Yellowstone-Yukon Conservation Initiative and Center for Large Landscape Conservation  
Conserving the Earth’s critical ecological processes – the emergence of connectivity conservation |

14.45  | Sonam Wangdi, Dept of Forests & Park Services, Bhutan  
Connecting and protecting half of Bhutan: a national case study |

15:00  | James Hardcastle and Natasha Ali, IUCN  
Promoting fair and effective conservation: the IUCN Green List of Protected and Conserved Areas |

15:15  | DISCUSSION |

15:30  | TEA/COFFEE |

16:00  | Harry Jonas, Natural Justice and IUCN WCPA  
Other effective area-based conservation measures: opportunities and challenges |

16:15  | John Waitaka, IUCN WCPA  
The role of OECMs in safeguarding space for nature in Kenya |

16:30  | Julia Miranda Londoño,  
Parques Nacionales Naturales de Colombia  
Protected areas for conservation and sustainable development |

16:45  | DISCUSSION |

18.05  | Poster session and drinks reception |

19.15  | SYMPOSIUM DINNER |
# Safeguarding space for nature and securing our future: developing a post-2020 strategy

**Day 2: Wednesday 28th February**

**An ambitious post-2020 strategy on space for nature**

| 09:00 | **SESSION 9:** Chair, Jonathan Baillie, National Geographic Society  
Summary of Day 1                      | Jonathan Baillie, National Geographic Society               |
| 09:10 | **SESSION 10:** How the global infrastructure tsunami is shrinking space for nature  
Panel discussion                      | William Laurance, James Cook University                      |
| 09:40 | How much space do we need for nature?       | Noëlle Kümpel, BirdLife International                        |
| 09:40 | How much space do people want for nature? A global public opinion survey | Julia Miranda Londoño, Parques Nacionales Naturales de Colombia |
| 11:00 | TEA/COFFEE                                  |                                                               |
| 11:30 | **SESSION 11:** Space for nature in a post-2020 strategy: how to achieve it?  
Panel discussion                      | Mike Barrett, WWF-UK                                         |
| 11:30 | Bending the curve: restoring nature to our planet | Mike Barrett, WWF-UK                                         |
| 11:45 | Innovative mechanisms for financing an ambitious strategy on space for nature | Caroline Peterson, UNDP                                     |
| 12:00 | How to spare half a planet                  | Andrew Balmford and Rhys Green, University of Cambridge     |
| 12:15 | DISCUSSION                                  |                                                               |
| 12:30 | LUNCH                                      |                                                               |

---

**SESSION 12:** Chair, Martin Harper, RSPB  
Space for nature in context - integrating area based conservation measures into future socio-economic scenarios

<table>

</table>
| 13:30 | Space for nature in context - integrating area based conservation measures into future socio-economic scenarios  
Panel discussion                      | Piero Visconti, ZSL                                          |
| 13:45 | Economic perspectives on an ambitious strategy for space for nature  
Panel discussion                      | Bernardo Strassburg, Pontifical Catholic University of Rio de Janeiro |
| 14:00 | Suggestions for structuring a site conservation target within the post-2020 biodiversity framework | Thomas Brooks, IUCN                                         |
| 14:15 | DISCUSSION                                  |                                                               |
| 14:30 | TEA/COFFEE                                  |                                                               |
| 14:30 | Final Discussion  
Mechanisms for implementing a more ambitious strategy on space for nature | Harvey Locke, Nature Needs Half  
Chris Sandbrook, University of Cambridge  
James Watson, Wildlife Conservation Society |
| 15:00 | SESSION 13: Conclusions and Actions         |                                                               |
| 16:30 | Closing Remarks                             |                                                               |

---

**SESSION 13:** Simon Stuart, Synchronicity Earth  
Conclusions and Actions
