Recycle me please!
I’m printed with vegetable inks on FSC certified paper. So keep the good work going, and drop me into a recycling bin please.

PS... We don’t always feed our animals at the talks, as we don’t want to make them fat! Some of our animals are a little unpredictable, which means things are subject to change. We also have no reason to believe that we make an exclusion of circumstances, these changes might not be marketed in advance. All these details were accurate at the time of going to press, so we’re sorry if it’s incorrect/wrong by any alterations.
